Mr. Erwin's decease was brought about by a complication of diseases, but chiefly from enlargement of the heart. His serious illness began at the close of the last session of the State Senate. Since then he had constantly grown worse, despite his retirement from active political life.

George Z. Erwin, of Potsdam, N. Y., has been prominent as a Republican in State politics for years. He was first elected Assemblyman from St. Lawrence County in 1881, and represented his district for six years. He was candidate for Speaker in 1884, but was defeated by Senator Sheard. In 1885 he was chosen Speaker. In 1889 Mr. Erwin was elected to the State Saute from the Twentieth to the State Senate from the Twentieth District, and he served several terms in the upper chamber at albany. He served on many important committees in both the Assembly and Senate, and was the leader of ex-Senator Frank Hiscock's forces in the memorable contest that ended in the election of Hiscock to the United States Senate.

Mr. Erwin was both in American all the server of t

WHO LET HIM OUT?

Bergen, a Blackwell's Island Prisoner, at Large.

Rearrested on His Wife's Charge and Held.

Alleged Scandals to Be Investigated-Heads May Fall.

One of the surprising things in con-

times seen around their usual haunts within a few days after their sentence. Once in a while such events leak out and are published, but although several investigations have been started, no one seems to know how the prisoners escape. What influences, political or otherwise, are put in motion to defeat the ends of justice.

In the Yorkville Police Court this morning one of these "mysteries" appeared in the person of Thomas S. Bergen, formeriy of the Westcott Express Company, but who some time ago started in business for himself. Four months ago he was sent to the island for six months by Justice roady on Bergen's fallure to pay it per week to his wife, who charged him with abandonment.

Whether Bergen ever served a single day of his sentence does not appear. Certain it is that a few days ago he was around the city as usual, and no record appears of his having been released. Nor can the name of any bondsmen be found who might possibly have been able to arrange matters.

Bergen refuses to tell how or when he got off the island, and apparently enjoys the surprise which his freedom has occasioned.

An investigation which promises to be far reaching is being made, and it is possible that some officials may lose their heads.

It was on Sept. 3 that Bergen was first arrested on his wife's charge, and sentenced to a six-months' term. Mrs. Bergen to do a six-months' term. Mrs. Bergen who is a dreasmaker and lives at 409 Lexington avenue, had peace until Sunday last, when she dreamed her husband was free again.

The dream worried ner so much that yesterday morning she visited her sister-in-law's residence. 29 West Washington Square, where the latter is housekeeper. The first person she saw on entering was her husband, whom, untill her dream, she believed was safe on Blackwell's Island. There was nothing of the prison air about him.

Mrs. Bergen told her brother, and they at once started for the office of the
